# THE INCREDIBLE POWER OF AN ACCOUNTING/BUSINESS DEGREE

## GO WHERE YOU WANT TO GO

Imagine having valuable skills that allow you to work virtually anywhere you want...a technology start-up...a multinational Fortune 500 company... a pro sports team...a charity...a hospital...a university...or even own your own business. That's the incredible power of an accounting degree that Certified Public Accountants (CPAs) use to achieve their professional and personal goals. Every organization – large, small or anywhere in between – needs a trusted, qualified professional who knows how to manage its finances and help chart future directions. With their strong financial skills, extensive business knowledge and integrity, CPAs are ideally qualified to fulfill that role – serving as trusted advisors who help organizations achieve their strategic goals and accomplish their mission.

Why shouldn't that talented, respected professional be you? With a degree in accounting/

business, you'll be well positioned in a highly competitive world to achieve your own dreams and goals as you help others achieve theirs.

## ACAP-OHIO IS THE ANSWER

The Accounting Careers Awareness Program-Ohio (ACAP-Ohio) is an innovative career-development program designed specifically for minority students who are sophomores and juniors in high school. During a week-long campus residency program, a select group of students will have the opportunity to explore careers in accounting and business. ACAP-Ohio introduces minority high school students to accounting, finance, economics, technology, and management. Minority business leaders will share their experiences, provide tips for success and discuss educational opportunities. You will witness accounting careers first-hand through tours of CPA firms and companies in the private sector. The program will conclude with an all-star

awards banquet for students, parents, speakers and corporate sponsors.
